● WEXPORT

WeXport operates in global markets providing the best import/export services to companies that aim to scale their business development, open new markets and to enlarge their product offer.

● THE TASK

The Middle-East and North Africa branch will furnish/supply businesses with best quality products that are specifically tailored for the region, all while keeping to our promise of delivering an exceptional / unmatched experience to our clients.

● THE GOAL

The main goal of our company is to help local businesses achieve their competitiveness within local as well as global markets.

IMPORT

Our import service supports companies to develop their presence in local/foreign markets and to increase their business. Based on our clients' requests, we scout for products worldwide (mainly Europe & USA) to match with expected price, quality, volume, and innovation. We connect to suppliers from the area of interest and carefully we assess them based on reliability and expected product quality and services. Our support focuses on the perfect partner. We share with our clients as much target area information as possible to allow clients to evaluate the business risk and the potential returns from that region economic system. We monitor suppliers' production progress, as well as prototypes / new products / collections.

EXPORT

Our export service supports companies in their business development worldwide (mainly Africa and Asia). Our knowledge of foreign markets and the related product demands enable our clients to point to the most attractive products to export in whole food markets. Thanks to our partners, we select the most attractive products to export. Our commitment is to stand with our clients to maximise their return on investment and to define the strategy aimed at product positioning on local/international markets. On behalf of our clients, we perform quality controls on items and ensure that the country's criteria list is fully checked off before shipment.

EXPERIENCE

EXPANSION

SERVICES

WeXport provides customized services to assist companies in foreign trade operations. We scout for potential customers having interest for our products portfolio, and we manage, on behalf of our customers, the commercial relationship. We regularly assess the needs of such companies, and the most relevant markets for the products to be imported or exported. We develop the most sustainable trade strategy for our clients, their products, the volumes, the specific certifications and more. Together with the international qualified logistic providers, we deliver products worldwide managing items with specific handling or packaging requirements.

ACTIVITIES
